Nothing tastes better than the flavor of a wood fired grill on steaks, seafood, chicken, pork, or any exotic meat. Also, cooking at 1100° can add a lot of heat to the kitchen. Tuff Grills are the only way to go. The patented Cool Jacket technology keeps the heat where you want it providing an amazingly comfortable workplace for your chefs. In addition, with the gas lighter, you don't need a boy scout to keep the fire burning. The uniquely durable design is energy efficient and the construction delivers long-term performance and low maintenance costs. Virtually indestructible cooking grids and fire grates round out the structural integrity of every Tuff Grill. But don't take our word for it, hear what these fine chefs have to say. Available in a variety of sizes, there's a Tuff Grill that will fit your commercial kitchen like a glove.
